Localization of stable-unstable manifolds with Fast Lyapunov Indicators and applications to the three body problem

Massimiliano Guzzo *

guzzo@math.unipd.it

www.math.unipd.it/~guzzo/

The Fast Lyapunov Indicators have been used in the last years to detect the stable and unstable manifolds of certain dynamical systems. After a description of the method in its generality, I will present new developments and applications to the three-body-problem.
